

PRICE LIST 2: TEMPORARY LICENSES

NOTE 1: Prior to purchasing you can get a feeling for the software capabilities and features, by downloading a permanent Demo from the [Download](#) Section of our web site. Demos do not have expiration date. However, you won't be able to save or print your transmission line designs. Sorry.

NOTE 2. DLTCAD can be installed in various computers; however, it can only be used in one computer at a time.

NOTE 3: DLTCAD FULL is oriented to the design of Transmission Lines within the range from 50 kV to 500 kV. DLTCAD LIGHT is oriented to the design of Distribution Transmission Lines within the range from 7 kV to 45 kV. To see differences between both DLTCAD versions Full and Light, click [here](#).

PURCHASING OF ONE TEMPORARY LICENCE FOR DLTCAD SOFTWARE.

This is recommended for users who may want to work with the software for the number of months as specified below. Installers are delivered individually on line and the software works through the internet. Upon expiration of the allowable period of use, all data bases and files developed during design time remain in the user's computers. They can be reactivated again by the purchasing of additional temporary licenses. Tech support is provided during each purchased license period.
